Prevent Diabetes STAT Rhode Island: Screen/Test/Act Today™

Over one third of Rhode Islanders are pre-diabetic and the vast majority are not aware that they are. Left untreated, between 15 and 30 percent of pre-diabetics will develop full type 2 diabetes within five years. Diabetes Prevention Programs have proven to be very effective in preventing

pre-diabetics from progressing to diabetes, which is the single most costly chronic condition in Rhode Island.

Representatives from the American Medical Association and Rhode Island Department of Health will provide detailed data regarding the effectiveness of Diabetes Prevention Programs (DPP). This educational

activity will focus on the importance of performing routine pre-diabetic screenings, how to perform such screening, and how to refer patients to free, evidence-based DPPs in their communities. Given these tools, physicians will not only establish new clinical habits, but will also empower patients to take better care of themselves.

Learning Objectives

Participants will learn how to:

1. Assess patients' risk for pre-diabetes.
2. Conduct routine screenings.
3. Connect patients with DPPs
4. Engage and communicate with local DPPs to establish a process to receive feedback about patient participation/progress.
5. Position themselves to prosper under new payment models.

Program Agenda

8:00am – 8:45am: Registration/Breakfast/Visit Exhibitors

8:45am – 9:00am: Welcome

- **Bradley J. Collins, MD**, President, Rhode Island Medical Society

9:00am – 10:00am: Screen/Test/Act Today™

- **Katy Kirley, MD, MS**, Director, Chronic Disease Prevention Improving Health Outcomes, American Medical Association

The AMA and CDC have created a toolkit that can help physician practices screen and refer patients to evidence-based diabetes prevention programs without adding a burden to their practice.

The AMA will provide an overview of the toolkit and how physicians can incorporate the toolkit's guidelines into their practices.

10:00am – 10:15am: Break/Visit Exhibitors

10:15am – 11:00am: Connecting Physicians and Patients to Diabetes Prevention Programs

- **Randi Belhumeur, MS RD LDN CDOE**, Program Administrator, Division of Community, Health and Equity, Rhode Island Department of Health
- **Michelle Barron-Magee**, Diabetes Prevention Program Coordinator, Rhode Island Department of Health

The Community Health Network at the Rhode Island Department of Health currently has 14 free Diabetes Prevention Programs throughout the state. Presenters will explain the structure of RI's DPPs, the effectiveness of these programs, and how to refer patients to DPPs in their communities.

11:00am – 11:30am: Incorporating DPP into Your Medical Practice

- **Marna Heck-Jones**, IT EHR & Data Analytics Coordinator, Anchor Medical Associates

Anchor Medical will discuss the methodology and the effective implementation of incorporating diabetes prevention programs into medical practices.

11:30am – 12:00pm: Call to Action

12:00pm: Adjournment

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Warren Alpert Medical School of Brown University and the Rhode Island Medical Society. The Warren Alpert Medical School of Brown University is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

The Warren Alpert Medical School of Brown University designates this live activity for a maximum of 2.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

BROWN
Alpert Medical School

This event is made possible through a grant from the Rhode Island Foundation.
