Public Health Grand Rounds Webinar Event

Addressing the Public Health Crisis of Suicide through Innovation in Identification: Improved Precision, Care Delivery and Redirecting Scarce Resources

April 11, 2013

Kelly Posner, PhD

Associate Clinical Professor of Medical Psychology (In Psychiatry)
Founder and Principle Investigator, Center for Suicide Risk Assessment
Columbia University/New York State Psychiatric Institute

Technical Requirements

Silverlight, a free web-browser plug-in designed to enable interactive media, is required for viewing.

Minimal Requirements:

Windows:

X86 or x64 (64-bit mode support for IE only) 1.6-gigahertz (GHz) or higher processor with 512-MB of RAM

Macintoch (Intel based)

Intel Core Duo 1.83-gigahertz (GHz) or higher processor with 512-MB of RAM

installation instructions.

-Please click the Silverlight Icon for further details on system requirements or to view

Use the following link to download the plug-in if needed:

http://www.microsoft.com/getsilverlight/get-started/install/default.aspx

-You may need to have your network administrator download the plug-in for you. Once downloaded, the above demo should then play with no problems for you.

Prior to the Webcast

Pre-Test Your Linkage:

- Please use this link to test the linkage prior to the event: http://amms.oshean.org/content/DOH/PHGR-6-12-2012/
 - Click "Launch Presentation" to start viewing.
 - **Not** the Silverlight icon next to it.
 - If it works, you should not encounter any problems on the day of the event.
- If the above did not play, you may need to download Silverlight* on your computer.
- Use the following link to download the plug-in if needed: http://www.microsoft.com/getsilverlight/get-started/install/default.aspx
 - You may need to have your network administrator download the plug-in for you. Once downloaded, the above demo should then play with no problems for you.

*Silverlight is a free web-browser plug-in designed to enable interactive media

Live Streaming

We strongly recommend you test the system on your computer a few days prior to the webcast. Your facility may have firewalls in place, please contact your IT department.

Please see the next slide for further instructions.

Live Streaming
