

Public Health Grand Rounds Webcast Event

"Quality Improvement of Asthma Care in Pediatric & Family Practice Medical Homes"

Presented by the Rhode Island Department of Health Friday, December 14, 2012, 8:30 - 9:30 am

Program Description

Developing effective care management processes based on evidence-based guidelines can be challenging amongst competing demands in today's primary care practices. This presentation will share the experiences of two primary care practices in implementing, maintaining, and

evaluating care management processes for the management of chronic asthma in pediatric and adult patients, touching on staff organization and training, use of an electronic medical record, and the selection and use of practical quality improvement indicators.

Target Audience

Professionals specializing in: Pediatrics, Family Medicine and Adult Medicine, as well as healthcare professionals practicing in health centers, health plans, the Rhode Island Chronic Care Collaborative, Chronic Care Sustainability Initiative, Beacon Health Strategies and all other Public Health Partners.

Educational Objectives

At the conclusion of this session, attendees should be able to:

- 1. Describe key components of the American Academy of Pediatrics' Education in Quality Improvement for Pediatric Practice (EQIPP) module.
- $2. \ \ \, \text{List asthma measures for quality improvement in asthma care.}$
- 3. Discuss how the electronic medical record can be used to integrate evidence-based guidelines to improve asthma care.
- 4. Identify improvement team members, and their roles, necessary to change office work flow and improve patient outcomes.
