PEDIATRIC POLYSOMNOGRAPHY

THURSDAY, NOVEMBER 2, 2017

Target Audience

Intermediate to advanced sleep medicine specialists, fellows, psychologists, physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists.
Instructional level: intermediate

Program Description

This course is targeted towards experienced sleep practitioners seeking a more advanced but still practical approach to polysomnography in infants, children and adolescents. Highlights include improving practices and lab environment to accommodate children with special needs (including autism), updates on PAP masks for pediatric populations including mask fitting and desensitization, and updates in positive airway pressure (PAP) titration. Further skills in polysomnography and multiple sleep latency testing and interpretation will be promoted by experts in the field.

At the conclusion of this course, attendees should be able to:

- Identify ways to improve the sleep lab experience and safety for children and families
- Manage special needs children in your sleep lab
- Select PAP masks that work best for children (infants to obese teens; craniofacial disorders), list tips for mask fitting in children, and principles of mask desensitization
- Describe PAP treatment and home monitoring options for OSA and other forms of sleep disordered breathing including: auto-titration devices, bi-level pressure support, adherence monitoring and advanced diagnostics
- Identify limitations and practical approaches to MSLT protocols for children and the unique diagnostic features of sleep physiology of patients with narcolepsy that can be identified on polysomnography and multiple sleep latency tests
- Recognize normal respiratory and non-respiratory features, variants, artifacts and PSG patterns of sleep and breathing in childhood

BEST PRACTICES

FRIDAY, NOVEMBER 3, 2017

Target Audience

Researchers, clinicians, and trainees (physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists). Instructional level: intermediate.

Program Description

This course will offer best practice, up-to-date, evidence based information in the treatment of pediatric sleep disorders, including sleep disordered breathing, narcolepsy, restless legs syndrome/periodic limb movement disorder, circadian rhythm disorders, insomnia, and parasomnias. In addition, participants will learn best practices approaches to engaging patients and families to increase adherence to sleep interventions, including PAP therapy.

At the conclusion of this course, attendees should be able to:

- Identify and diagnose physiologically-based pediatric and adolescent sleep disorders
- Identify and diagnose behaviorally-based pediatric and adolescent sleep disorders
- Apply up-to-date, evidence based treatments for pediatric and adolescent sleep disorders
- Utilize motivational interviewing and family engagement techniques to improve adherence to sleep interventions in pediatric populations

Please join us from 6:00–8:00 PM in the Ocean View Room & Terrace for refreshments and light hor d'oeuvres.

2017 PEDIATRIC SLEEP MEDICINE MEETING

SATURDAY, NOVEMBER 4, 2017

Target Audience

Researchers, clinicians, and trainees (physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists). Instructional level: intermediate

Program Description

Attendance at Pediatric Sleep Medicine 2017 will give participants a broad understanding of pediatric sleep, including state-of-the-art basic and clinical research in pediatric sleep and circadian science, as well as current clinical practices in pediatric sleep medicine.

At the conclusion of this meeting, attendees should be able to:

- Summarize relevant information on the latest in pediatric sleep and circadian research and clinical practice
- Identify issues and challenges in pediatric sleep medicine
- Understand public policies that potentially impact children's/adolescent's sleep

4:00–5:00 PM

Concurrent Workshops

Co-Chairs: Hawley Montgomery-Downs, PhD
Stephanie J. Crowley, PhD

I. *Challenging Cases That Teach and Lessons Learned*

Beth A. Malow, MD, MS
Carol L. Rosen, MD

A discussion of several challenging pediatric sleep medicine cases with a review of the science and/or behavioral treatments that led to the correct diagnosis or best outcomes for the patients.

II. *Applying Circadian Rhythms Research Into Clinical Practice*

Stephanie J. Crowley, PhD
Michael Gradisar, PhD

An interactive review of basic circadian rhythm research of children & adolescents & how these data can inform treatment strategies in the clinic.

III. *Communicating Sleep and Circadian Science to the Public*

Lynne Lamberg, MA
Hawley Montgomery-Downs, PhD
Robyn Stremmer, RN, PhD

A discussion on how you can effectively & accurately communicate sleep & circadian rhythms science to the media & other public domains.

IV. *How To (And How Not To) Approach School Start Time Policy In Your Community*

Maida L. Chen, MD
Valerie Crabtree, PhD
Judith A. Owens, MD, MPH

This workshop will involve a panel discussion of implementing school start time policy changes in middle and high schools.

ACCREDITATIONS & CREDIT DESIGNATIONS

CME/CE Accreditations

The Warren Alpert Medical School of Brown University is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Nurses Credentialing Center (ANCC) and the American Academy of Nurse Practitioners (AANP) accept *AMA PRA Category 1 Credits*[™] from organizations accredited by the ACCME.

The American Association of Sleep Technologists designates this educational activity for a maximum of 18.50 AAST Continuing Education Credits. Individuals should claim only those credits that he/she actually earned in the educational activity.

Credit Designations

Pediatric Polysomnography Course — November 2, 2017

Physicians: Alpert Medical School designates this live activity for a maximum of 4.5 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Sleep Technologists: This educational activity is designated for 4.5 Continuing Education Credits.

Best Practices Course — November 3, 2017

Physicians: Alpert Medical School designates this live activity for a maximum of 7.0 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Sleep Technologists: This educational activity is designated for 6.75 Continuing Education Credits.

Biennial Pediatric Sleep Medicine Meeting — November 4-5, 2017

Physicians: Alpert Medical School designates this live activity for a maximum of 8.75 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Sleep Technologists: This educational activity is designated for 7.25 Continuing Education Credits.

REGISTRATION FEES, INFORMATION, VENUE AND ACCOMMODATIONS

Conference Fees

Includes CME/CE certificates, online syllabi for Pediatric Polysomnography and Best Practices courses, resource materials, meals as outlined in each course schedule, & welcome reception.
