5th Annual New England Sports & Orthopedic Rehabilitation Summit

Advances in Anterior Cruciate Ligament (ACL) Surgery, Rehabilitation, and Injury Prevention

PROGRAM DESCRIPTION

The New England Sports and Orthopedic Rehabilitation Summit 2017: Advances in Anterior Cruciate Ligament (ACL) Surgery, Rehabilitation, and Injury Prevention is a one day conference targeting physical therapists, physical therapy assistants, athletic trainers, nurses, chiropractors, medical students, primary care physicians, and orthopedic/sports medicine physicians. Evidence for optimal surgical and post-operative ACL injury management, and prevention of ACL injury is constantly evolving. Understanding and integrating this evidence is crucial to achieving optimal patient outcomes. This course will provide a comprehensive overview of current and emerging evidence detailing surgical, rehabilitation, and prevention considerations with ACL injury. This program will feature an integrated format combining lectures, open panel discussion, and hands-on breakout workshop sessions offering opportunities for application and detailed exploration of presented concepts.

TARGET AUDIENCE

Athletic Trainers, Occupational Therapists, Occupational Therapy Assistants, Physicians, Physician Assistants, Physical Therapists, Physical Therapy Assistants, and Strength and Conditioning Professionals.

LEARNING OBJECTIVES

At the conclusion of this activity participants should be able to:

- Describe proposed factors influencing successful return to preinjury level of sports/recreation participation
- Identify evidence and risk factors contributing to reinjury following ACLR
- Discuss surgical considerations with ACLR, ACLR revision, and concomitant articular cartilage injury and subsequent influence on post-operative outcomes and rehabilitation planning
